I'm a senior finance transformation consultant with 25 years in insurance and banking. My background maps directly to what you're building at VHV: I've spent the last decade redesigning finance operating models, leading process automation projects, and guiding teams through digital transitions—exactly the mix this role requires.

My most relevant recent work: I spent 18 months as interim Finance Manager for a mid-sized insurer, where I owned the end-to-end redesign of their month-end close process. We eliminated manual reconciliations across three legacy systems, cut close time by 40%, and built the governance framework that stuck after I left. That's the kind of sustained change you're after. I've also run PMO on a regulatory reporting transformation that touched Finance, Actuariat, and IT simultaneously—the cross-functional choreography is something I've done repeatedly and well.

One honest point: I've worked primarily as an independent consultant and interim manager. I move fast and thrive in ambiguous, high-stakes environments. If VHV is looking for someone who will spend two years getting comfortable before moving, I'm probably not the fit. But if you need someone who lands running, makes sense of competing priorities quickly, and actually closes transformation initiatives—that's me.

I'm based in France and open to relocation or a hybrid model in Hannover. Happy to discuss how my track record translates to your roadmap. Reach me at xro@xavier-robitaille.com or +33 6 64 89 09 43.
