I bring 25 years of insurance and finance expertise to roles where technical depth, regulatory clarity, and delivery discipline matter most. I've spent my entire career at the intersection of finance transformation, PMO governance, and stakeholder alignment—the exact space where most initiatives stall.

On my last engagement, I redesigned the financial close process for a mid-cap insurer, cutting cycle time by 35% while strengthening audit controls. Before that, I led the PMO function across a multi-year regulatory reporting overhaul, managing 15+ workstreams with zero slippage on compliance deadlines. These aren't theoretical wins—they're the kind of results that stick because they're built on process discipline and honest stakeholder management.

I work best as an interim or fixed-term consultant on high-visibility programs where judgment matters as much as execution. I'm comfortable as AMOA, interim Finance Manager, or PMO lead depending on where the value is. The trade-off is clear: I'm most effective in defined-scope mandates with real deadlines, not open-ended permanent roles.

I'm ready to move quickly if the mission fits. You can reach me at xro@xavier-robitaille.com or schedule 30 minutes on my calendar to discuss specifics.
