Re : Investment Director (Remote)

RGG Capital runs a lean, research-driven investment process: sourcing and screening hedge funds, liquid alternatives, and systematic strategies, then turning that work into memoranda a small, senior team can act on fast. Coordinating that due diligence lifecycle end to end, trackers, updates, macro briefs, calls for someone who has already run processes at that level of stakes.

At SCOR, I spent four years, two of them as chief transformation officer of the investment function. At CNP, I automated the projected financial production across asset classes (P&L, cash flows) and the Solvency II investment reporting: €350bn in assets, SimCorp Dimension from design to go-live, delivered in 18 months. That combination, leading transformation inside an investment function and building the reporting behind €350bn in assets, matches what this role needs on portfolio data, risk metrics, and reporting quality.

As senior programme director at Clearwater Analytics, I ran several parallel implementations of a Record-to-Report SaaS solution, each with monthly sponsor committees at executive level and a consolidated view of deliverables, milestones, and resources on a dedicated tool, Monday.com, including an engagement for the Luxembourg-based Luxempart. That discipline, tracking a multi-stakeholder process end to end and turning it into decisions senior leadership can act on, applies directly to the due diligence coordination this role calls for.

My academic background includes a DEA in macroeconomics from Université Paris Dauphine and the full examination track of the Centre d'Études Actuarielles (2004), a quantitative foundation for macro research and scenario work. Certified in Generative AI Primer (Vanderbilt, 2026) and GenAI for Account Executives (Yale, 2026), I automate today nearly all of my entrepreneurial activity through AI agents under Claude or GPT.

I operate as an independent consultant today. Nevertheless, I am perfectly open to a permanent role, directly or after an initial engagement period.

I would be happy to discuss how this background applies to RGG Capital's due diligence and research process.

Best regards,

Xavier Robitaille
