I bring 25 years of insurance and finance expertise to roles where technical depth, regulatory constraints, and delivery pressure intersect. As an interim finance manager and PMO lead, I've built the kind of specialized judgment that's rare—knowing how to move complex transformations forward when Finance, Actuariat, IT, and Operations need alignment.

On my last assignment, I redesigned the closing process for a mid-cap insurer, cutting month-end timeline by 40% while tightening controls across three business units. Before that, I led a regulatory reporting overhaul that eliminated manual reconciliation bottlenecks and reduced compliance risk in the CFO office. These aren't generic improvements—they're the kind of outcomes that happen when someone understands both the business rules and the operational reality.

I work best on high-visibility mandates where clarity and discipline matter. I'm independent (Expert Zone Advisory SAS), which means I'm built for short-term assignments and can mobilize quickly. The tradeoff is straightforward: you get senior-level judgment without the overhead, but I'm not looking to embed as a permanent hire.

I'm available to discuss fit. My calendar is at calendly.com/xrobitaille/30min, or reach me at xro@xavier-robitaille.com or +33 6 64 89 09 43.
