Dear Hiring Manager,

I'm writing to express my interest in the Syndicate Reporting Manager role at your London market re-insurer.

For 25 years, I've worked exclusively in insurance and finance—the last decade focused squarely on syndicate operations, regulatory reporting, and close process discipline. I've led the quarterly close cycle for multi-currency Lloyd's syndicates, managed the preparation and submission of regulatory returns under both UK GAAP and Solvency II frameworks, and worked directly with external auditors to meet submission deadlines. I'm ACCA-qualified and have spent the bulk of my career solving the exact problems this role exists to prevent: late closes, ledger reconciliation gaps, and regulatory compliance friction.

My most recent mission was redesigning the close process for a mid-sized London market syndicate facing pressure on timeline accuracy. I rebuilt the quarter-end timetable, introduced a reconciliation framework that cut exception resolution time by 35%, and embedded controls around ledger population to prevent month-end surprises. The result was a clean close delivered five days early, with zero regulatory submission adjustments. I've also spent three years as interim Finance Manager within a larger insurance group's CFO office, supporting the Syndicate Finance function on strategic reporting decisions.

I work as a senior consultant through my own entity, Expert Zone Advisory. That gives me flexibility and direct accountability for delivery, but I'm genuinely interested in moving into a permanent role where I can build something sustainable rather than hand off. A CDI in a structured finance team appeals to me now.

I'm available to discuss timing and next steps at your convenience. I can be reached at xro@xavier-robitaille.com or +33 6 64 89 09 43.

Best regards,

Xavier Robitaille
