

CV Xavier Robitaille

XAVIER ROBITAILLE

IFRS 17 / IFRS 9 / Solvency II, SFCR & RSR reporting Specialist | Insurance Finance Transformation | Senior Consultant & Programme Lead

+33 6 64 89 09 43 | xrobitaille92150@gmail.com | linkedin.com/in/xrobitaille | Remote / international — available May 2026

EXECUTIVE SUMMARY

- Senior finance consultant specialised in **insurance accounting transformation**, with 25+ years of experience across insurance, reinsurance and asset management. Deep, practical expertise in **IFRS 17, IFRS 9 and Solvency II, SFCR & RSR reporting**: from impact assessment and TOM design through dry-run closing, systems design, UAT and first-year live production.
- Combines **actuarial training, technical accounting and programme delivery** discipline — a rare profile able to operate credibly across Finance, Actuarial, Risk and IT simultaneously.
- Track record includes: IFRS 9 Programme Manager at Coface (3 years, Finance as sole ECL model owner), IFRS 9/17/Solvency II, SFCR & RSR reporting Finance Stream Leader at AXA XL (PAA eligibility assessment, SAS-based dry-run, QRT/ORSA/RSR/SFCR delivery), Head of Technical Accounting and Reserving at Coface (Bornhuetter-Ferguson methodology), Group Head of Investment Accounting (IFRS 9 live production, R2R automation), and Audit Manager in Insurance at Mazars.
- Particularly sought for **complex regulatory implementations** where the Finance/Actuarial/IT interface is the critical challenge.
- Fully bilingual EN/FR. Open to remote assignments worldwide, hybrid in EMEA (UK, continental Europe).

CORE KEYWORDS

IFRS 17 | IFRS 9 | Solvency II, SFCR & RSR reporting | PAA (Premium Allocation Approach) | GMM | ECL Model | Insurance Finance Transformation | Technical Accounting | Reserving | QRT Reporting | ORSA / RSR / SFCR | Target Operating Model | Dry-run Close | Impact Assessment | Record to Report (R2R) | Process Automation | Data Migration | UAT | Finance / Actuarial / IT Interface | PMO | SAP S/4HANA | SAP BFC | SAS | Investment Accounting | Closing Optimisation | Solvency II, SFCR & RSR reporting Look-through | Power BI

KEY REGULATORY ASSIGNMENTS — IFRS 9 / IFRS 17 / SOLVENCY II

AXA XL (P&C Finance) — IFRS 9 + IFRS 17 + Solvency II, SFCR & RSR reporting Finance Stream Leader — PAA eligibility assessment across all LoB, SAS-based dry-run close, ~€25m equity impact quantified, QRT / ORSA / RSR / SFCR delivery (2018–2019)

Coface Group Finance — IFRS 9 Project Manager — ECL model design (SAS, Finance as sole owner, external risk matrices methodology), data migration, accounting transition, UAT management (3 years, 2020–2022)

Coface Group Finance — Group Head of Investment Accounting — IFRS 9 live production, R2R automation, D+5→D+3 closing via SAP S/4HANA, Power BI investment dashboard (2023–2024)

Coface (first assignment) — Head of Technical Accounting & Reserving — Bornhuetter-Ferguson stochastic reserving, SAS investment data platform design, IFRS technical accounting (2004–2005 + 2017–2018)

Mazars — Audit Manager Insurance & Reinsurance — statutory audit, internal controls, reserving reviews (5 years, 1999–2004)

PROFESSIONAL EXPERIENCE

AXA XL — P&C Finance Department · May 2018 – Jul 2019 (15 months)

Finance Stream Leader — IFRS 9 / IFRS 17 / Solvency II, SFCR & RSR reporting

- Led the end-to-end Finance impact assessment and implementation workstreams for a combined IFRS 9, IFRS 17 and Solvency II, SFCR & RSR reporting transformation within an AXA P&C entity.
- IFRS 17: confirmed **PAA (Premium Allocation Approach)** eligibility across all contract families (coverage ≤ 1 year). Delivered IFRS 17 dry-run close at 31 Dec 2017 using a **SAS-based internal model** (derived from AXA Group model): quantified **~€25m equity transition adjustment** and **~1.5ppt combined ratio variance** across **8 lines of business**.
- IFRS 9: led classification & measurement assessment (investment portfolio), impairment approach design, transition accounting entries and **ECL staging** methodology. Coordinated with Risk and Actuarial on provisioning model inputs.
- Defined Target Operating Model: organisation, processes, accounting tools and reporting architecture under the new standards.
- Supervised Solvency II, SFCR & RSR reporting QRT reporting (**Invoke RAPP**); contributed to ORSA, RSR and SFCR deliverables.
- Co-led steering committees; coordinated Finance, Actuarial, Risk, Reinsurance, IT and external audit stakeholders.
- Organised quarterly and annual closing cycles: planning, task allocation, daily reporting to senior management.

Coface Group — Group Finance · May 2017 – May 2018 + Jan 2020 – Oct 2024 (5 years)

IFRS 9 Project Manager / Group Head of Investment Accounting

IFRS 9 Project Manager (Jan 2020 – Dec 2022)

- Led Finance workstreams for Coface's IFRS 9 implementation — investment accounting, ECL provisioning model, data migration and close process redesign.
- Designed the **ECL (Expected Credit Loss) model** end-to-end: methodology built on external risk matrices, implemented in **SAS**, with Finance as sole owner — an unusual setup that ensured full control over model governance. Established monthly variance analysis framework in post-production; oversaw UAT and proof-of-concept phases.
- Validated transition accounting schemes (IFRS 9 Day-1 entries); redesigned close calendar under IFRS 9; developed automated control tools for ongoing monitoring.
- Coordinated Finance, Risk, IT and external auditors across all project phases; managed regulatory reporting timeline under first-year live production.

Group Head of Investment Accounting (Jan 2023 – Oct 2024)

- Steered IFRS 9 first-year live production; redesigned reporting interfaces; reduced closing timeline from **D+5 to D+3** through **SAP S/4HANA** interface automation and SAP→SAP BFC reporting chain redesign.
- Industrialised R2R process: **Power Query** workflows for CACEIS monthly data (accounting/management rec, SAP/CACEIS rec, FX analysis, price controls); **VBA macros** for custodian-to-SAP format conversion; **SAP FC Publisher** automation for BFC consolidation queries across ~20 international entities.
- Delivered consolidated **Power BI** investment dashboard for CXO-level reporting, replacing manual processes.

First assignment (May 2017 – May 2018)

- Head of Technical Accounting — investment accounting production, regulatory reporting, operating model redesign.
- Designed a shared **investment data platform in SAS**, covering data sourcing, data model architecture, quality controls and management reporting; the platform served as the backbone for all subsequent analytics work, including the IFRS 9 ECL model deployed in 2020.

Coface — Group Finance (first tenure) · May 2004 – Oct 2005 (18 months)

Head of Technical Accounting and Reserving

- Led technical accounting (insurance-specific) and provisioning across a multi-entity insurance group.
- Designed and implemented **Bornhuetter-Ferguson stochastic reserving methodology** — replacing manual estimation with a structured quantitative model.
- Coordinated accounting, actuarial and operational stakeholders; accelerated close process. Intercompany reconciliations and Group Finance coordination.

Clearwater Analytics · Nov 2024 – Apr 2026 (18 months)

Senior Programme Manager — Investment Platform & Solvency II, SFCR & RSR reporting Reporting

- Led end-to-end delivery of a cloud-native investment platform (**Clearwater Analytics SaaS**, €11bn AUM) for a French reinsurer, including Solvency II, SFCR & RSR reporting reporting module, French GAAP accounting design and SAP GL integration.
- Delivered full **STP (Straight-Through Processing)** from order management through accounting production to Solvency II, SFCR & RSR reporting QRT reporting — closing cycle reduced from D+4 to D+2.
- Deployed **AI-powered control framework** (price-variation monitoring, AI-assisted tripartite reconciliation FO/BO/custodian, automated closed-end fund processing) — eliminating manual control workflows.
- Supervised Solvency II, SFCR & RSR reporting reporting design and accounting workstreams throughout UAT and go-live phases.
- Managed C-suite governance (Sponsor Committees, bilingual SteerCo), RAID log (10+ critical risks), OMS/Jump go-live (Dec 2025) and Hypercare coordination.

CNP Assurances · May 2013 – May 2018 (5 years)

Head of Financial Production & Solvency II, SFCR & RSR reporting Unit / Lead Business Owner — SimCorp Dimension

- Head of Financial Production & Solvency II, SFCR & RSR reporting Unit (May–Dec 2013): managed 5-person team responsible for Solvency II, SFCR & RSR reporting reporting, portfolio sensitivity and performance reporting; significantly enhanced the **P&L Forecast model** — introduced bond reinvestment assumptions, inflation modelling for index-linked bonds, equity return assumptions; extended perimeter to private equity, real estate and land assets. Initiated migration roadmap from legacy **Access** tools toward **SAS** (calculation engine) and **QlikView** (management dashboards).
- Lead Business Owner for **SimCorp Dimension** implementation (Jan 2014 – May 2018, ~€350bn AUM): drove functional design, accounting entries, controls, Solvency II, SFCR & RSR reporting reporting architecture, UAT and go-live for investment accounting platform.

Primexis / SCOR / Mazars · Sep 1999 – Apr 2013

Earlier Career — Insurance Consulting, Audit and Transformation

- Mazars (1999–2004): Audit Manager — Insurance & Reinsurance. **Statutory audit, internal controls, due diligence and reserving reviews**. Deep exposure to insurance-specific accounting, technical provisions and investment function controls.
- SCOR (2005–2008): Head of Group Consolidation (IFRS + US GAAP quarterly/annual) and Head of Transformation Projects, Investment Dept — **led SimCorp Dimension selection and RFI/RFP**; project budget €3m/year.

- Primexis (2008–2013): Associate Director — built 20-consultant Insurance practice (€3m revenue, 10 clients). Concurrent SimCorp PM at SCOR Investment Partners (€20bn AUM): designed and implemented **Solvency II, SFCR & RSR reporting look-through automation** for UCITS funds — automated underlying asset consolidation, sensitivity calculations and transparsing across 3 dimensions (underlying assets, sensitivities, Solvency II, SFCR & RSR reporting).

EDUCATION & QUALIFICATIONS

ESCP Business School — Grande École — Master in Management | Major: Finance | 1991–1995

Centre d'Études Actuarielles, Paris — Master in Actuarial Science | 2002–2004
