I bring 25 years of insurance and finance expertise to roles where technical depth, regulatory clarity, and delivery discipline matter most. I've spent my entire career in this sector—working across actuarial, finance operations, and IT transformation—which means I understand both the constraints you face and how to move through them.

On my last major engagement, I redesigned the financial close process for a mid-sized insurer, cutting closing timelines by 35% while tightening control frameworks to meet regulatory requirements. The work required aligning Finance, Actuariat, and Operations teams around a single operating model—exactly the kind of cross-functional complexity I've done repeatedly.

I run Expert Zone Advisory as a consulting practice, so I'm structured for immediate deployment. My calendar is clear, and I work in sprint mode on high-visibility mandates. I'm also honest about what I am: a senior interim contributor, not someone looking to embed as permanent staff. If that's the fit you need, I move fast and produce clean work.

Let's talk through the specific challenge. You can reach me at +33 6 64 89 09 43 or xro@xavier-robitaille.com. My Calendly is open for a quick call this week.
