I bring 25 years of insurance and finance expertise—specifically the kind needed when technical depth, regulatory constraints, and delivery pressure collide. My sweet spot is interim leadership roles where clarity and execution discipline move the needle: finance transformation, PMO governance, regulatory reporting redesigns, and CFO office support.

What I deliver: I've spent my career translating between Finance, Actuariat, IT, and Operations. Last year I led a full closing process redesign for a €2B+ insurance portfolio, cutting month-end close time by 35% while tightening controls. Before that, a three-year programme managing multiple simultaneous regulatory reporting migrations (Solvency II, IFRS 17 precursor work)—the kind of work that requires both technical rigour and the ability to keep teams aligned under uncertainty.

I'm structured as an independent consultant (Expert Zone Advisory SAS, established entity, full KBIS available). I work best on defined, high-visibility interim mandates—typically 6-18 months—where I can own delivery end-to-end. I'm less suited to pure staff advisory roles; I need skin in the game.

If you have a finance, PMO, or business transformation challenge where depth matters and you need someone who can deliver without hand-holding, let's talk. You can reach me at +33 6 64 89 09 43 or xro@xavier-robitaille.com. I'm also on Calendly at calendly.com/xrobitaille/30min if you'd prefer to book directly.
