I bring 25 years of insurance and finance expertise to roles where technical depth, regulatory clarity, and delivery discipline matter most. I've spent my entire career at the intersection of finance transformation, PMO governance, and stakeholder alignment—the exact zone where most organizations struggle.

On my last two engagements, I led a regulatory reporting overhaul for a €2B+ insurer (reduced month-end close by 8 days, embedded three new IFRS 17 workflows) and restructured the finance operating model for a mid-market asset manager (redesigned controls, reshaped the CFO office, delivered on a compressed timeline). Both projects required navigating competing demands from Finance, Actuariat, Compliance, and IT simultaneously. That's where I add the most value.

I work as an independent consultant through Expert Zone Advisory, which gives flexibility on contract structure—whether you need interim leadership, deep-dive advisory, or program governance. My calendar is open, and I move quickly once scope is clear.

The honest trade-off: I'm not looking for a permanent seat. If you need someone embedded long-term on a transformation with real complexity, I'm your fit. If you need permanent hire, I'd rather be transparent upfront.

Let's talk if this resonates. Calendly link is above, or reach out directly at xro@xavier-robitaille.com.
