Re : Senior Director - Fund Accounting - Private Markets

SS&C's Private Markets clients need fund accounting oversight that spans jurisdictions and outsourced teams without losing the thread on regulatory substance. That is the specific challenge this role poses, coordinating Luxembourg and India, satisfying the CSSF and the BCL, and keeping client relationships intact through all of it.

At Clearwater, I worked as senior programme director, running several parallel implementations of a R to R SaaS solution, with monthly sponsor committees at senior management level and consolidated delivery, milestone, and resource tracking on Monday.com. One of these clients was Luxempart. That work covered the same ground this role asks for: managing outsourced and cross-border delivery streams while keeping executive stakeholders aligned on progress and risk.

At CNP, I automated the projected financial production across asset classes (P&L, cash flows) and the Solvency II investment reporting: €350bn in assets, SimCorp Dimension from design to go-live, delivered in 18 months. That work required the same regulatory precision and stakeholder coordination (Finance, Actuarial, Risk) that Luxembourg fund reporting demands from BCL and CSSF filings.

At Coface, IFRS 9 was rolled out in stages over four years: POC cycles, ECL methodology, accounting schemes, UAT, and coordination with the depositary CACEIS, alongside a 16-person team in an earlier role there. This is the same combination this position needs: technical ownership of NAV-adjacent accounting standards, plus direct management of teams delivering against SLAs.

Hybrid work is how I have operated for years, including throughout the Clearwater programmes, and remote coordination across time zones and outsourced locations is a normal part of how I run delivery.

I operate as an independent consultant today. Nevertheless, I am perfectly open to a permanent role, directly or after an initial engagement period.

I would be happy to discuss how this experience applies to the Luxembourg and India team structure specifically.

Best regards,

Xavier Robitaille
