I'm a finance transformation consultant with 25 years in insurance and banking—exactly the combination Redegate needs for a multi-market group realignment.

My last three years have been built on this: I've redesigned accounting and controlling functions across 5+ entities, mapped end-to-end processes to identify standardization opportunities, and built operating models that scale. At a €2B insurance group, I led a finance function review that surfaced €1.2M in control gaps and duplication, then designed the target model and drove rollout across 8 countries. I'm equally comfortable with the spreadsheet-level process documentation and with translating that into a coherent governance story for the CFO office.

I work the way you need it: methodical process assessment, clear gap analysis, pragmatic design, and hands-on implementation support. I've built playbooks, trained local teams, and embedded accountability—not just written recommendations that sit in a folder.

One honest note: I'm freelance, not looking for a CDI. If Redegate prefers permanent hire over contract, that's worth knowing early. If you want someone who can start immediately, embed with your CFO's team, and deliver within 6–9 months, I'm your person.

Let's talk specifics. I'm at xro@xavier-robitaille.com or +33 6 64 89 09 43.
